

# Naval Aviation Chemical, Biological, Radiological, Nuclear Defense (CBRND) Coordinators

*Meeting the Needs of the  
Fleet*

09/05/16

# Current Situation in Naval Aviation CBRND Programs

- CBR-D much more in the spotlight
- Ship-based units have always depended on ship for training and equipment.
- Expeditionary units had been left out.
- Equipment now provided by central inventory system for expeditionary air, and still by ships.
- Many ongoing initiatives to improve programs, requirements, training, reporting, etc.
- The CBRND Coordinators provide an interim training solution.

# End State Objectives in CBRD Program

- Coordinated, clear policy and guidance up/down CoC (CNO, FFC, TYCOMS, TYPEWINGS, etc.)
- TYPEWINGS are a critical node for Training
  - Manage/implement CBRD Program.
  - Define T/M/S specific training details.
  - Maintain resources for unit training.
  - SME's provide training or assist with unit training.
  - Certifies unit ready to deploy wrt CBRD.

# What We Do

- Support the Navy's CBRD Program
- Interim solution for TYPEWING
- Provide Assistance to Naval Aviation Units
  - Wing/Unit CBRD Program Development
  - CBRD Ground IPE Support
  - On-site Fitting and Indoctrination
  - Unclassified Briefs
- Mobile Training Team - travel to your site

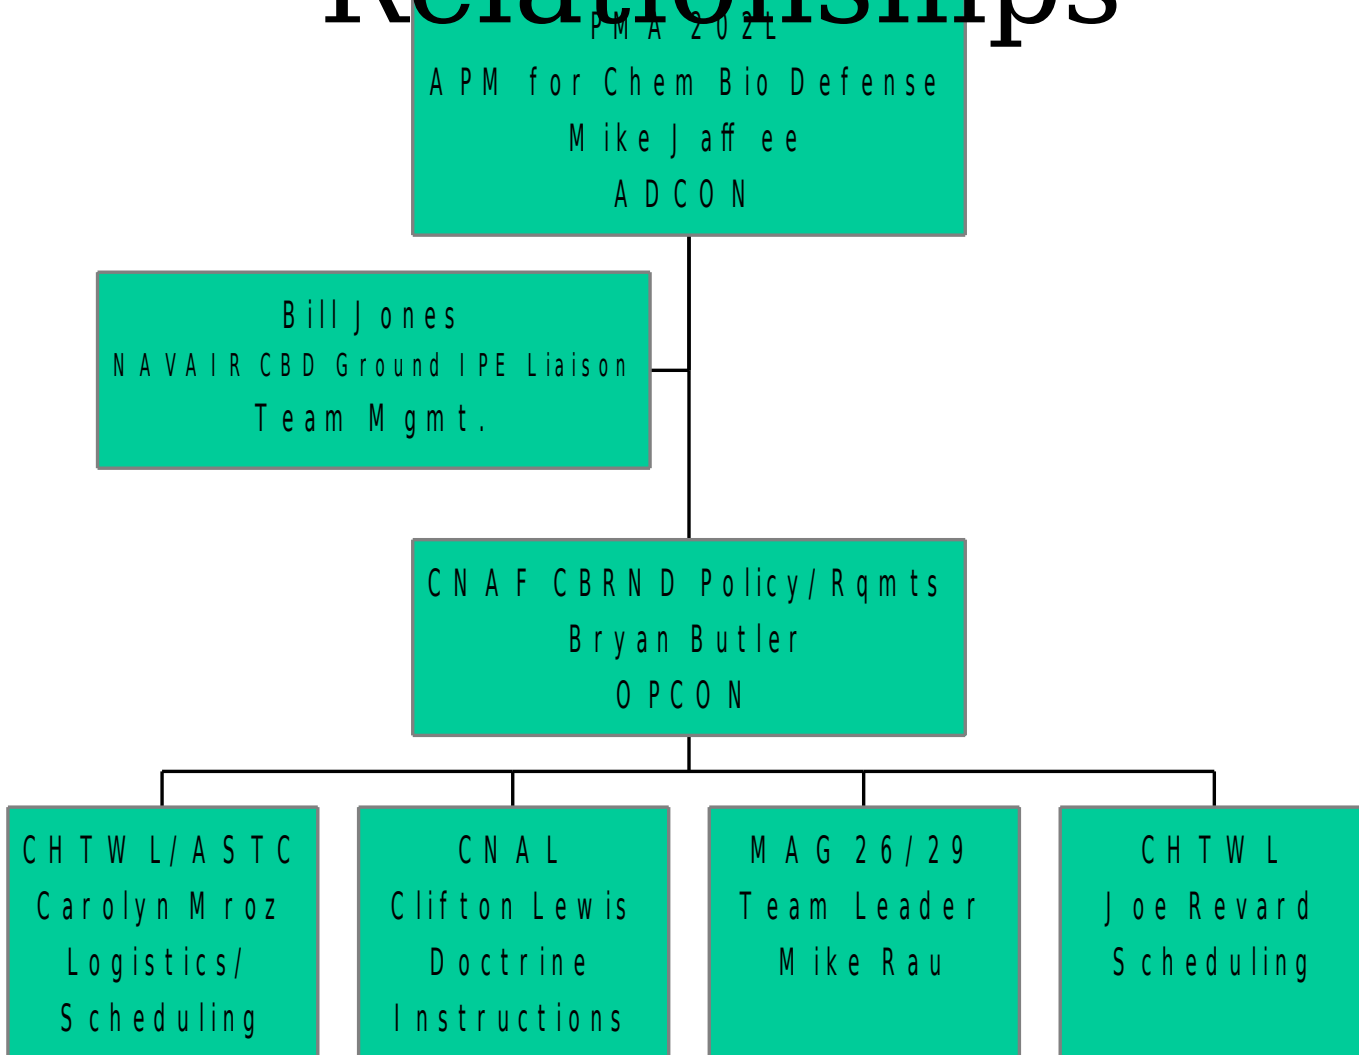

# Available Services

- Unit CBRND Program Development
  - Lesson Plans, Resources, Training Gear
- “Train-the-Trainer” Training
- Ground IPE Indoctrination
- Quantitative Fit Testing
- Assessment Visits
  - Evaluate CBRD Training, Instructors, Gear
- Assist with gear return, post-deployment
- CBRND Program/Info Reachback capability

# Who We Are

- OPNAV Chartered
- CNAF N34R Operational Direction
- NAVAIR PMA 202L Managed
- Current team is made up of contractors.
  - Battelle Memorial Institute contractors
  - Retired Navy/Marine Corps CBRND experts

# Organizational Relationships

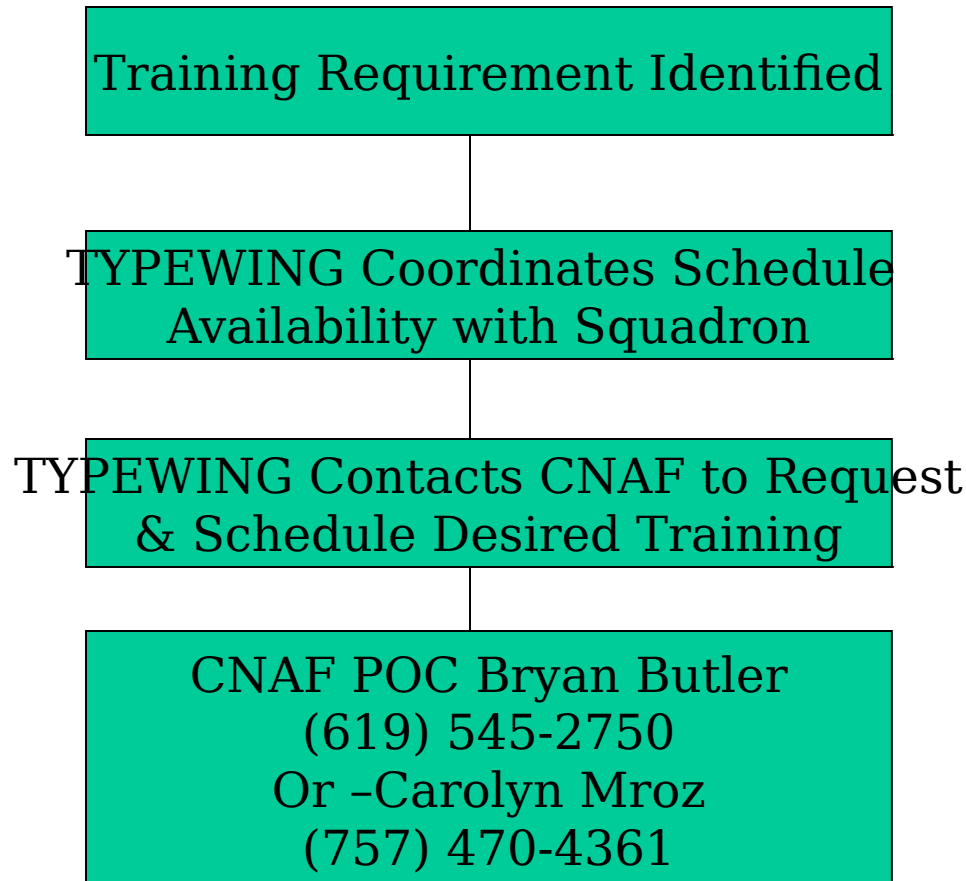

# Where We Are

# How To Request Services

# Concept of Operations

## From Service Request to End of Deployment

- Wing coordinates schedule of training assist visit through CNAF.
- CBRND Training Team contacts unit to coordinate logistic details of assist visit.
- CBRND Training Team requests masks and training gear from warehouse-equipment shipped to unit.

# Concept of Operations (Continued)

- Training Team travels to unit, provides training, equipment sizing, and mask fit/test.
- Masks fitted and issued to each individual, and remain in their possession.
- Sizing data for all other IPE is recorded in database.

# Concept of Operations (Continued)

- Prior to deployment, squadron requests CBRD IPE kit bags from warehouse (cc CNAF) using sizing database.
  - allow time for kitting (50 bags per day), and shipping.
- Unit receives IPE shipment, and manages issue of individual bags (and opening) based on operational situation.

# Concept of Operations (Continued)

- Post-deployment, all gear is returned to warehouse (including masks).

NAVAIRSEFAC NAF El Centro

Bldg. 514

El Centro, CA 92243

UIC: Q99379
